Outcome One and Outcome Two (English)

A.B:

In outcome one, the teacher gives a model paragraph to help you. You don't just copy it — you change words and improve parts. Outcome two is when you write independently using the structure you've learned.

Mrs Griffin:

Do you find them useful?

A.B:

Yes. Outcome one helps you understand what to do for outcome two. You use the structure but write about something different.

Mrs Griffin:

Does it build your confidence?

A.B:

Yes. At first it felt hard to write independently, but now it feels easier because of outcome one.
